International Prudence Bond

The Prudential Assurance Company Limited With-Profits Fund benefit from the investment strength of the M&G Group. Prudential has many years experience of managing multi-asset funds and a global investment operation that means investments can be widely diversified, which helps to spread the risks and enhance the potential for returns. The bonuses added to the funds are designed to reflect the investment returns and to ensure that investors receive a fair share of the profits, while smoothing the peaks and troughs of market movements. The charts on the next few pages show the success of our strategy over recent years.
