We would like everyone to find it easy to deal with us. Please let us know if you need information about our plans and services in a different format.

All our literature is available in audio, large print or braille versions. If you would like one of these please contact us using the details on the last page.

It is important that you read our Key Information Document and relevant Investment Option Document(s).

It's important for you to decide whether this product is right for you and what funds to choose.

Please read our Key Information Document and relevant Investment Options Document(s). These include important information which may help you make up your mind.

You should receive them with your application form. Please keep these documents safe for future reference or go to our website at prudential-international.com for the most up to date version.

About the International Prudence Bond (top-up payments)

Only applicable for bonds taken out before 9 May 2011

Not for use in the UK, France, Spain or Belgium

The International Prudence Bond is an investment bond which enables you to invest in a range of investments with the potential for growth. It allows you to take tax-efficient withdrawals, while providing an element of life cover.

Its aims

What this plan is designed to do

- To grow the value of your bond over the medium to long term, so 5 to 10 years or more.
- To allow you to take tax-efficient withdrawals.
- Provide a small amount of death benefit.
- To help reduce your Inheritance Tax liability if you choose to place your bond in trust.
- Gives you access to a wide range of unit-linked investments to match your investment objectives and attitude to investment risk.

Your commitment

What we ask you to do

- To make a top up payment of at least £15,000, €20,000 or \$25,000.
- The value of your investment can go down as well as up so you might get back less than you put in.
- If the total charges and costs are more than any overall growth achieved, your bond will fall in value, possibly to even less than you have invested.
- If you cancel your bond or top-up within 30 days you may get back less money than you paid in. We explain this in the section "What if I want to cancel my top up?".
- The level of risk and return is different depending on the funds you choose. Please refer to your **The Fund Guide for the International Investment Bond and International Prudence Bond** for more information.

- There may be exceptional circumstances that delay the buying, switching and selling of units in any fund. Please read your **Contract Conditions** for more information.
- Inflation will reduce what you could buy in the future.
- Fluctuations in exchange rates could affect the value of your investment or withdrawals.

Risks

What you need to be aware of

- The value of your investment can go down as well as up so you might get back less than you put in.
- If the total charges and costs are more than any overall growth achieved, your bond will fall in value, possibly to even less than you have invested.
- If you cancel your bond or top-up within 30 days you may get back less money than you paid in. We explain this in the section "What if I want to cancel my top up?".
- The level of risk and return is different depending on the funds you choose. Please refer to your **The Fund Guide for the International Investment Bond and International Prudence Bond** for more information.
- There may be exceptional circumstances that delay the buying, switching and selling of units in any fund. Please read your **Contract Conditions** for more information.
- Inflation will reduce what you could buy in the future.
- Fluctuations in exchange rates could affect the value of your investment or withdrawals.

Other documents you should read

It is important that you read your Key Information Document and relevant Investment Option Document(s). If you want more information, please read the following documents. We have highlighted when they are relevant throughout this document.

They're all available from your adviser, or direct from us. Details on how to get in touch are on the last page.

- **Contract Conditions**
Gives you the full terms and conditions of the contract.
- **Statement of Charges**
Gives details on charges applicable to your plan.
- **Fund Guide for the Prudential International Investment Bond and International Prudence Bond**
This explains your investment choices.
- **Your guide to investing in the PruFund Range of Funds**
This outlines the basic features of the PruFund Range of Funds.
- **The PruFund Range of Funds: Guarantee Options**
This shows the guarantee options associated with the PruFund Range of Funds.

Questions & Answers

Is the International Prudence Bond right for me?

The International Prudence Bond is designed for you to invest in a tax-efficient way either on your own or jointly with someone else. It provides access to a wide range of investments.

To start a International Prudence Bond you must be over 18.

You can be the life assured or you can choose to assure the life of someone else. The minimum age for any lives assured is 3 months and the maximum age at outset is 89 years.

You need to understand and accept the risks of investing. You shouldn't invest in our bond if you can't invest for at least five years or don't feel you understand the risks associated with investing. Remember that the level of risk you take depends on the fund options you choose.

If you are not sure whether the International Prudence Bond is right for you, please speak to your financial adviser.

How flexible is it?

You can choose where to invest your money, switch your investment or cash in this bond at any time.

Your bond is set up as a group of identical policies. The standard number is 20, although you can choose to have more or fewer. You can cash in each policy separately.

This bond allows regular and partial withdrawals. Please refer to "How do I take money out of my bond?" for more information.

The maximum term of the bond is 99 years.

Top-ups within the last 80 years of the term are at our discretion.

How much can I pay into my bond?

You'll need to make a top-up payment of at least £15,000, €20,000 or \$25,000.

There are limits on how much you can invest across the PAC With-Profits Range of Funds and the PruFund Range of Funds. The maximum you can invest across these funds (in one or more bonds) is £1,000,000, €1,500,000 or \$1,500,000.

If you own the bond jointly with someone else, you will each be treated as having invested the full amount. So if you jointly invest £1,000,000 into these funds, it will count as the maximum for both of you. This limit includes any top-up investments into these funds.

You are unable to top-up a PruFund Protected Fund.

Where are my payments invested?

You and your financial adviser can choose which funds you would like from a specified range. You can invest in up to ten funds at any one time. There are three types of fund available:

- the PAC With-Profits Range of Funds.
- the PruFund Range of Funds – you can find more information on these in **Your guide to investing in the PruFund Range of Funds;**
- other unit-linked funds.

For more information about all the funds you can choose from, please read our **Fund Guide for the Prudential International Investment Bond and International Prudence Bond.**

Important Information

Access to the Prudential PAC Sterling, PAC Euro and PAC US Dollar With-Profits Funds is no longer available to new customers investing in International Prudence Bond (IPB) on or after 11/09/2017.

However, if you are an existing customer pre 11/09/2017, you will still be able to top up or switch into the Prudential With-Profits PAC Sterling, PAC Euro and PAC US Dollar Funds.

It is important to note we are not closing the Prudential With-Profits Fund. The underlying fund and ongoing management of the fund will remain the same and access will continue to be available to the With-Profits Fund through the PruFund range of funds.

If you are in any doubt about this product please speak to your financial adviser.

Unit pricing basis

Different funds invest in different types of assets for example, some only invest in property, others invest directly in the stock market and others invest in a wide range of assets. Each fund has its own level of risk and potential for growth. Usually, funds with more potential for growth carry more risk. Remember, the performance of the funds isn't guaranteed. The value of your investment can go down as well as up so you may get back less than you put in.

When you invest in one of our funds, your money buys units in that fund. The price of these units is primarily determined by the value of the assets held in the fund, but also depends on whether, overall, more money is going into the fund or coming out of it.

If there is a net inflow of money, the fund will be buying assets. This means that the unit price will be influenced by the purchase price of the underlying assets in the fund. Conversely, if there is a net outflow, it will be influenced by the sale price of the underlying assets, which is lower than the purchase price.

Over time, as the flows of money change, the unit price will fluctuate between a purchase price basis and a selling price basis. At times, there may be a sharp movement between the two, meaning the unit price could rise or fall significantly. This will affect the price you pay to buy units when you invest in a fund or the value you receive from selling, if you are switching out of a fund or cashing in your bond.

The difference between purchase and selling prices is generally largest for funds investing in property, smaller companies and developing markets. You can find more information in the **Contract Conditions**.

How unit-linked funds invest

Some of the Prudential International funds listed in your fund guide may invest in 'underlying' funds or other investment vehicles. Have a look at a fund's objective and that will tell you where it invests – including if that's in an underlying fund or funds.

If the Prudential International fund is investing in just one underlying fund then it's what's known as a 'mirror' fund, as the performance of the Prudential International fund broadly aims to reflect the performance of the underlying fund it invests in. The performance of our Prudential International fund, compared to what it's invested in won't be exactly the same. The differences between the underlying fund and our fund can be due to:

- additional charges,
- cash management (needed to help people to enter and leave our fund when they want),
- tax,
- timing of investments (this is known as a fund's dealing cycle, it varies between managers and can be several days).

Information relating to sustainability risks and how they could impact returns

We make a range of funds available through this product. In determining this range, no specific criteria relating to sustainability risks are taken into account. However, the funds themselves may be constructed and managed taking into account sustainability risks.

The following types of sustainability risks are likely to impact on fund returns:

- Environmental risk examples include; climate change, increasing water scarcity and waste management challenges.
- Social risk examples include; product safety, supply chain management and labour standards, health and safety and human rights, employee welfare, data and privacy concerns and increasing technological regulation.

- Governance risk examples include; board structures and effectiveness, management incentives and management quality.

These could, for example, impact on asset types in the following ways:

Asset type	Potential impact of sustainability risks
Equities and property	Some markets and sectors will have greater exposure to sustainability risks. For example, climate change can damage property which the fund owns, thereby impacting the cash flow and capital value of the fund. Sustainability risks may also impact market prospects in which a fund operates, thereby affecting the market valuation of the fund.
Fixed interest	Sustainability risks can affect the borrowers' cash flows and therefore the ability for people to meet their debt obligations.

Details on each fund's strategy, asset objectives and asset mix is provided in fund documentation made available by the fund's manager, including how they take into account sustainability risk where applicable.

At this time, due to a lack of available data related to the underlying investments, it cannot be confirmed whether this product takes into account the EU Sustainable Finance Taxonomy criteria for environmentally sustainable economic activities.

What's a Market Value Reduction (MVR)?

If you take money out of the With-Profits Funds, we may reduce the value of your fund if the value of the underlying assets is less than the value of your bond including all bonuses.

This reduction is known as a Market Value Reduction (MVR). It is designed to protect investors who are not taking their money out and its application means that you get a return based on the earnings of the With-Profits Fund over the period your payments have been invested.

We apply the MVR to your bond's value including regular and final bonuses. A MVR will reduce the amount payable on full, partial or regular withdrawals and if investment returns have been very poor, you may get back less than you have invested in your bond.

We guarantee not to apply a MVR on any payments made due to death.

Our current practice on applying an MVR

We may apply a Market Value Reduction to withdrawals, including switches on all investments.

We reserve the right to change our current practice on Market Value Reductions at any time, without prior notice, and this would apply to existing bonds and any new bonds or top-ups.

Examples of reasons for a change would include significant changes in the investment market or because the number of people moving out of the fund increases substantially.

Can I change my investments?

Yes. However, you can't invest in more than ten funds at any one time.

The minimum amount you can switch is £500, €750 or \$750. If you're not switching the full value of your investment from a particular fund, you need to leave at least £500, €750 or \$750 in that fund.

You can switch up to 20 times in any 12-month period without charge. After that, we will charge you. For more details on this charge, please read the **Statement of Charges**.

For most funds, you can switch money whenever you like. However, the PAC With-Profits Range of Funds and the PruFund Range of Funds have some restrictions.

PAC With-Profits Range of Funds

If you switch money out of the PAC With-Profits Range of Funds, we may apply a Market Value Reduction (MVR). For more information about the MVR, please see the section "Where are my payments invested?" You cannot switch between funds within the PAC With-Profits Range of Funds.

The PruFund Range of Funds

There are restrictions on when you can move money into, out of or between the PruFund Range of Funds. Also, if you are invested in one of the PruFund Protected Funds and switch money out of the fund, your Guaranteed Minimum Fund will be reduced proportionately.

For more information on switching terms, please read your personal illustration and **Your guide to investing in the PruFund Range of Funds**.

What are the charges and costs?

Charges and costs are deducted for managing your bond and the underlying investments. The amount we charge depends on the funds you invest in.

Charges and costs may vary in future and may be higher than they are now. All monetary charges may increase annually in line with the Irish Consumer Price Index and movements in relevant exchange rates. You can find more information in your **Contract Conditions**.

If you have a personal illustration, it will show how the charges and costs affect your bond, based on example growth rates and your chosen investment, and will also show details of how much we will pay your financial adviser.

With-Profits charges for guarantees

There is a charge to pay for all the guarantees the With-Profits Funds support. We guarantee not to apply a Market Value Reduction (MVR) when payments are made because of maturity. Our current MVR practice, which is not guaranteed, may include additional circumstances when an MVR is not applied. For more information, please read the section "What's a Market Value Reduction?".

The total deduction for guarantee charges over the lifetime of your bond is not currently over 2% of any payment made from the fund. Our charges may vary in the future and may be higher than they are now. Charges may vary if, for example, the long term mix or type of assets held within the With-Profits Fund is changed.

You won't see this charge on your annual statement because we take it by making a small adjustment to regular and final bonuses.

Establishment charge

For each top-up investment you make into the bond, we will take an Establishment Charge for the first five years following the investment. In each case, this is 0.3% taken quarterly in advance and based on the value of the relevant investment at the time we take each charge.

Fund charges and costs

All of the funds have an Annual Management Charge. In addition to our charges, there may be further costs incurred, which can vary over time. Where these are applicable, they are paid for by the relevant fund and will impact on its overall performance.

The Annual Management Charges and the current expected level of these further costs are set out in the current Statement of Charges for this product but they may vary over time.

Switch charge

You can switch money between funds without charge up to 20 times in any 12-month period. After that, we will charge you. For more details on this charge, please read the **Statement of Charges**.

Early cash in charge

If you cash in all or part of your bond within five years of making a top-up we will deduct an Early Cash-in Charge as follows.

1st year	10%
2nd year	8%
3rd year	6%
4th year	4%
5th year	2%

The percentage is based on the current value of the relevant investment.

PruFund Protected Funds – Guarantee Charge

The PruFund Protected Funds have an additional annual charge for the guarantee. We take this charge monthly in arrears by cancelling units.

For more information on this charge, please read **The PruFund Range of Funds: Guarantee options.**

What might I get back?

The amount will depend on:

- how much you've invested,
- how long you've invested for,
- any withdrawals you've made,
- how your investments have performed,
- whether we've added any Annual Growth Reward,
- the charges that have been taken from your investment.

If you have a personal illustration, it will show how much you could get, based on example growth rates and your chosen investment.

Annual Growth Award

For further details on the Annual Growth Award charge, please read the **Statement of Charges.**

PAC With-Profits Range of Funds

If you've invested in any of the funds within the PAC With-Profits Range of Funds, the value of your investment will depend on the bonuses we've added to it and whether any MVR applies.

The PruFund Range of Funds

The PruFund Protected Funds include a guarantee which takes effect on a selected anniversary of your bond. This may affect the amount you get back. For more information, please read **Your guide to investing in the PruFund Range of Funds.**

How do I take money out of my bond?

You can make one-off and regular withdrawals from your bond. The minimum amount of any withdrawal is £75, €112.50 or \$112.50.

If you're not withdrawing the full value of your investment from a particular fund, you must leave at least £500, €750 or \$750 in that fund.

If you ask us to pay you in any way other than by cheque, we may charge you for any costs incurred.

One-off withdrawals

You can make one-off withdrawals at any time. If you make a one-off withdrawal within the first five years of your bond, or within five years of a top-up, we will apply an Early Cash-in Charge. For more information, please read the section "What are the charges and costs?".

Regular withdrawals

We can pay regular withdrawals to you at these intervals:

- every month,
- every three months,
- every six months, or
- every 12 months.

You can take:

- a fixed amount – which needs to be at least the minimum listed above,
- a percentage of the total amount you have invested in your bond, or
- a percentage of the full value of your bond.

The maximum regular withdrawal you can take in any 12-month period can be found in the **Statement of Charges**.

Regular withdrawals are taken evenly across all the policies in your bond. For one-off withdrawals, you can alternatively choose to cash in individual policies.

Withdrawals and top-ups

If you've topped up your bond and you make a withdrawal, we take your withdrawal from each investment proportionately.

PAC With-Profits Range of Funds

If you withdraw money from the PAC With-Profits Range of Funds, we may apply a Market Value Reduction (MVR).

If you cancel a regular withdrawal request, we reserve the right not to allow you to restart regular withdrawals subsequently if you have elected to take them wholly or partly from a fund within the PAC With-Profits Range of Funds.

For example, we may exercise this right if, at the time you ask to re-start regular withdrawals, an MVR is in force for withdrawals from any of the PAC With-Profits Range of Funds. However, this rule does not effect withdrawals from unit-linked funds. You would also still be able to make partial withdrawals at any time.

Similarly, we reserve the right not to allow you to change your selected fund(s) for regular withdrawals to a fund within the PAC With-Profits Range of Funds. Again, we may exercise this right if, at that time, an MVR is in force. This is to help with our overall management of the PAC With-Profits Fund and to help ensure all policyholders are treated fairly.

For more information on MVRs, please read the section "Where are my payments invested?"

The PruFund Range of Funds

There are restrictions on when you can move money out of the PruFund Range of Funds. If you're invested in one of the PruFund Protected Funds and take money out of the fund, your Guaranteed Minimum Fund will be reduced proportionately.

For more information, please read your personal illustration (if you have one) and **Your guide to investing in the PruFund Range of Funds**.

What about tax?

Tax rules can change and the impact of taxation (and any tax relief) may depend on your specific circumstances. Before you make a decision you should speak to a financial adviser who can help you understand any tax impact.

Irish Exit Tax

If you become resident in Ireland, we'll deduct Irish Exit Tax from your bond:

- every eight years;
- when any benefits are paid out; or
- when the owners of the bond change.

We pay this tax to the Irish tax authorities. If you're not resident in Ireland, you don't have to pay Irish Exit Tax provided you complete the "Declaration of residence outside Ireland" which is contained within the application form.

Tax rules for trusts

If your bond is written under trust, special tax rules apply. For more information, please speak to your financial adviser.

How will I know how my International Prudence Bond is doing?

We'll send you an annual statement. If you want to know the value of your bond at any time, please call us on **+353 1 476 5000**.

What happens to the International Prudence Bond if I / the person covered dies?

What is the life cover?

Your bond comes with a small amount of life cover. You can cover the lives of up to ten people. If you cover one life only, we'll pay out a lump sum when that person dies.

If you cover more than one person, you can choose for us to pay the lump sum:

- when the first person covered dies, or
- when the last person covered dies.

The life cover will end if you cash in your bond and your bond will end if we pay the life cover.

Whose lives can I cover?

Anyone covered must be aged between 3 months and 89 years. You can be one of the people covered, but you don't have to be.

How much will the life cover pay out?

Where you choose to cover more than one person, the amount we will pay on death is based on the age of:

- the oldest person covered if the life cover is payable when the first person dies; or
- the youngest person covered if the life cover is payable when the last person dies.

The life cover will pay out either:

- 101% of the full value of the units relating to the investment – if the relevant person (ie the oldest or youngest as above) was 75 or under when you made the investment, or
- 100.1% of the cash-in value of the bond – if the relevant person was 76 or over when you took out the bond.

If you top up your bond, we will base the life cover for the top-up on the age of the people covered at the time that you make the top-up.

Where the life cover is based on the cash-in value of the bond, an Early Cash-in Charge will apply if the life cover is paid within five years of any investment into the bond. The charge will be as shown under the section "What are the charges and costs?".

What if the International Prudence Bond isn't right for me?

You have 30 days from when you first receive your bond documents to cancel. You also have 30 days to cancel any top ups.

If you decide to cancel a top up it won't affect any existing investment you have in place.

We'll send you a cancellation notice with your bond documents and if you decide to cancel, you can return the notice or write to us with your bond reference number at:

**Operations Department
Prudential International
Montague House
Adelaide Road
Dublin 2
Ireland**

If more than one person owns the bond, we'll accept cancellation by any of the owners, within the 30 day period, whether they're acting alone or jointly.

If you decide to cancel and you've invested in our PAC With-Profits Range of Funds or PruFund Range of Funds, you'll get back all the money you invested in those funds. If you've invested in any of our other funds, we'll give you your money back less any fall in value and less any adviser charges we've already taken, so you may not get back the full amount you paid in.

You can also cancel before you receive your bond documents by calling us or your adviser.

After 30 days your bond becomes binding and you can't cancel it. But if you decide it's not right for you later, you can cash it in. However you might not get all your money back if the value of it has fallen.

Other information

Compensation

Prudential International exceeds its capital requirements and is financially strong. However, in the unlikely event that Prudential International, the fund manager, Prudential in the UK or the custodian of fund assets should fail to meet their financial obligations, You may face financial loss.

Prudential International products will not be covered by a government-backed financial guarantee scheme, including the FSCS in the UK.

Financial Strength

Prudential meets regulatory standards for meeting its financial obligations. You can read our solvency and financial conditions reports at pru.co.uk/about_us, or if you contact us using the details on the last page, we can post some information to you.
